Unleash your business potential

KVP is a business transformation solutions provider with a strong belief that our success is only when our customers succeed. Our business strategy and operating models are defined to ensure we bring this thought to life.

We work with our customers to implement customized business solutions for increasing revenues and reducing costs using collaborative delivery models. Our team delivers a combination of strategy, process design framework and technology to produce solutions that provide tangible business impact for our clients. Our models go beyond just strategy into implementation, as the key to making an impact is in successful implementation of a strategy.

Our commitment

We take accountability for the result and not just the intermediary process.

Our core values

- Passion
- Integrity
- Empathy and mutual trust
- Customer delight

Our offerings

- Solutions to increase revenues
- Solutions to reduce cost
- Solutions to improve business efficiency
- Solution to enhance employee performance and productivity

Our business philosophy

- Professional and honest service
- To be the best in everything we do
- Provide highest value with unwavering integrity

"KVP has proved to be a credible and effective business partner. I appreciate that they continually deliver as per their commitments on-time and on-budget."

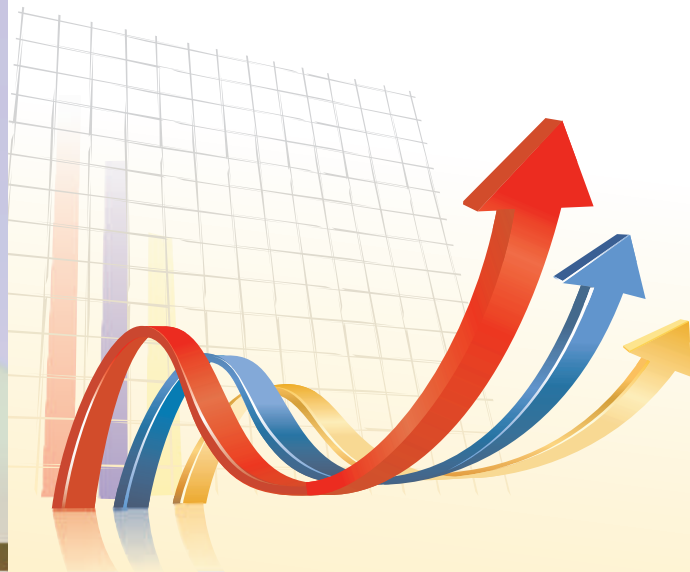

Mr. Rana Kashyap, Vice President-Strategy, Maini Precision Products

Solutions to enhance employee performance and productivity

We work with organizations who want to align teams to business objectives and get the best out of their human capital. Our focus is to get the team to drive organization growth plan and not just carry out tasks

Services

- HR process development
- Performance management systems development using Balanced Score Card (BSC) framework
- HRIS implementation
- HR surveys

We work with management in ensuring that the team is aligned to the goals of the organisation by establishing a structure that brings accountability and improves productivity.

The benefit

Percolation of the company's vision to the lowest level and team alignment of the team to meet business objectives.

Customers supported

- Bharath Auto
- Konkan Speciality Chemicals
- Matts Corner
- Neilmed

Our customers approach us when they need to:

- Align HR objectives to the company's vision
- Breakdown their vision into performance parameters at various levels as per the Balance Score Card (BSC) framework
- Develop HR processes
- Conduct organisation-wide surveys for competency gaps identification and employee satisfaction
- Define performance improvement plans

"KVP's involvement in our employee productivity strategy has brought unbiased and unified output solidifying our growth plans and improving business productivity."

Mr. Sudhir Pai, Managing Director, Bharath Auto Cars
